She She Me's Fabulous Find!

Necklace Saver

Ever try to grab for your favorite necklace while rushing to get out the door, only to find that it's been tangled up with several other trinkets in your jewelry drawer? [Necklace Saver](#) to the rescue!

Just place your necklace into the open slot on the 'saver' made of organza fabric, clasp the necklace closed, tie the ends together – and voilà – problem solved!

At \$8.95, this is the perfect accessory organizer!. I received one of these nifty little necklace sleeves just in time to test it out on a weekend getaway. It worked wonderfully! I have a gorgeous handmade necklace that I have been storing in a plastic bag (bad!) and I slipped it into the sleeve, tied the ends and tossed it into my suitcase. The necklace stayed tangle-free and perfect the entire trip! I am definitely going to snap up several of these necklace savers to help organize my favorite necklaces! Check it out – you'll love it!
